Course Information Sheet

Confined Spaces - Advanced Worker (2 day)

Duration

2 days - Training and assessments are conducted on both days.

Why do this course?

You will learn to identify and control hazards, plan the work, enter and work in confined spaces, work as specified on a Confined Space Entry Permit, gas test the atmosphere, and perform tasks in an environment where breathing apparatus is not required.

This course does not cover the requirements for supervising confined space entry or issuing work permits.

How much does it cost?

The cost of the course includes your enrolment, all course materials, and training and assessment.

Contact us for info on current pricing and group training rates.

Location

Site Safety Services specialise in on-site workplace training. We come to your workplace and deliver training / assessment using your equipment in a familiar environment.

By arrangement we can provide a venue and all required equipment to conduct training when the on-site option doesn't suit. Contact us to see how we can make it work for you.

Site Safety Services (AUS) conducts the training and assessment for this course to meet or exceed any required quality and legislative requirements.

English literacy

Candidates must be able to read and converse in English (without an interpreter or phone translator app.) in order to undertake this course of study.
